

## “I design and create Website, User Interface and UI Design“

Starting my career as photoshop designer at my early college days i slowly got into professional web interface designing, and then moving into corporate environment gave me more knowledge about designing user friendly interfaces. This long span of time was enough for me to master HTML5, CSS3, jquery and Responsive.

Total years of experience - 2.3 years

### Professional Experience

2.3 Years

#### Infoplus Technologies

*Webdesigner* - Responsibilities [Web Programmer(HTML5, CSS3, jquery) , UI Designer, W3C Validator, Browser compatibility ]

After Finishing my Under Graduate education B.E Computer Science Engineering at Angel college, I joined infoplus technologies in 2012 september. I am currently working here as webdesigner, my roles here is to create websites, UI desiging, Newsletters, brochures. After a year in Infoplus I had the oppertunity to work in .NET too. I designed and developed a few Applications in .NET and WPF UI Development. Infoplus help me gain knowledge about HTML5, CSS3 & Jquery, javascript, Responsive.
